Uber | Bolt

Uber & Bolt driver registration checklist

Everything you need to get fingerprinted and registered as a driver-partner — no guesswork, no long queues.

1 Documents to bring

- [ ] **South African ID or passport**
  Your ID book, smart ID card or a valid passport. Bring the original.
- [ ] **Proof of residence**
  A utility bill, bank statement or affidavit — not older than 3 months.
- [ ] **Driver's licence / PrDP** if you have one
  Not required to get fingerprinted, but bring it along if you already have it — it speeds up your platform registration.

2 Fingerprint (biometric) capture

Uber and Bolt require a biometric fingerprint capture as part of driver-partner registration and background checks. We handle this for you — walk in with your documents.

Price	Booking	Hours	Address
R350 per capture	Walk-in No appointment needed	Mon–Fri 8:00–17:00 Sat 8:00–13:00	9 Jill Street, Langlaagte North, JHB, 2092

3 Quick steps

01 **Gather your documents** using the checklist above.

02 **Visit us for your fingerprint capture** — R350, walk-in.

03 **Register on the Uber or Bolt app** and upload your documents when asked.

04 **Wait for approval** while Uber or Bolt reviews your account.

Final approval and processing times are set by Uber and Bolt directly, not by Web Graphs Technologies.
